SAVE ROCK AND ROLL!

HISTORY

Formed in 1994, **Weed N' Stiff** has been the world's premier rock and roll duo. The band consists of lead singer **James (Jim) Weed** and Guitarist **Dillard (Dill) Stiff**. Together, the band has recorded 10 albums and written more than 100 songs, released multiple music videos, and created a documentary.

Weed N Stiff's rise to fame certainly did not come easy, and not without making some enemeis along the way.

STORY

One of these rivals is a band called **Moo Cow**, fronted by lead singer **Joe Bobson**.

Jealous of Weed N' Stiff's career, Bobson decided to steal Jim Weed and Dill Stiff's essence - key items from Weed N' Stiff's past that allowed them to reach rock and roll stardom. Bobson didn't do this alone, however. He had help from other characters who felt like stepping stones in the careers of Jim and Dill. Fight to get the essence back! Weed N' Stiff must return as the rock and roll kings.
